I think you hit on all the main points. I think it would be good to call out **Ex. 5 - Deliberative** very clearly so that its not lost in a short para. of text. Also, per Jayne's comments on my "updates for mngt doc" it may be helpful to not only include info on how many comments were received on the issues (pro/con) but a brief overview of some of the main themes of those comments? I'm not sure if that info will be able to get from Chris or others in his group before the Mngt briefing on the 14th.

I took your info and inserted it into the format I developed for the updated doc. See what you think.

Attached is a very rough draft landslides statement. Your thoughts/comments would be appreciated.
